Mohammed Ahmad Ashifa

Email: mdashifa12@gmail.com

LinkedIn | Github | Leetcode

Computer Science undergraduate with hands-on experience in building scalable machine learning systems and real-time applications. Skilled in NLP, deep learning, and full-stack development, with a strong foundation in data structures and problem-solving. Passionate about developing intelligent, production-ready solutions that solve real-world problems.

Experience

MERN Stack Developer Intern – Aim Technologies (May–July 2025)

- Developed full-stack MERN applications with REST APIs, authentication, and scalable backend services
- Optimized backend performance and collaborated on debugging, testing, and deployment

Cybersecurity Virtual Experience – Deloitte (Forage)

- Analyzed simulated security breach scenarios to identify vulnerabilities and suspicious activity

Projects

RAG-Based Document Q&A System

- Built a Retrieval-Augmented Generation (RAG) system using embeddings and vector database (FAISS/Pinecone)
- Developed full pipeline (chunking → embedding → retrieval → LLM response)
- Improved answer relevance and reduced hallucinations by ~30%

Medical Image Segmentation using U-Net

- Implemented U-Net with transfer learning for medical image segmentation
- Improved accuracy by ~20% using data augmentation and tuning
- Processed imaging datasets to detect regions of interest
- Visualized outputs for better interpretability

Real-Time Sentiment Analysis Dashboard

- Built real-time sentiment analysis system using LSTM and transformer-based models
- Achieved ~90% accuracy on classification tasks
- Developed dashboard for live sentiment visualization
- Optimized preprocessing pipeline for performance

Skills

Languages: Java, Python, JavaScript, C++, C
Frameworks/Tools: FastAPI, Django, Node.js, React
Core CS: Data Structures & Algorithms, Object Oriented Programming, DBMS, Operating Systems
AI/ML: Natural Language Processing, Deep Learning, Retrieval-Augmented Generation, Transfer Learning, Vector Embeddings
Databases: MongoDB, SQL
DevOps: Git, Docker, Linux

EDUCATION

- B.Tech in Computer Science & Engineering– Aditya Engineering College (2024–Present) | CGPA: 9.07/10
- Diploma in Computer Engineering – Andhra Polytechnic (2021–2024) | 89.9%
- Schooling – St. Joseph's Convent School (2021 batch) | 83%

Achievements

- Solved 250+ DSA problems on LeetCode
- NPTEL IoT - Elite + Gold (90%)
- Completed certifications in NLP, Deep Learning, AI
